

Dear students,

I apologize very much but I have to cancel today's class. I am going this morning to funeral of one my university colleague.

Please prepare for next class oral discussion to article viewing at www.landfilldesign.com (go to field RESEARCH and then to

J.P. Giroud, J.G. Zornberg and A. Zhao
HYDRAULIC DESIGN OF GEOSYNTHETIC AND GRANULAR LIQUID COLLECTION LAYERS).

Can you find what is term „transmissivity“?

My suggestion for next class is Friday April 28, 2017 at 10:00, at the same place like today (room no. 121).

In a case to arrange another date or time, please call me today around 10-o'clock, 606 875 231 (I call back).

Thank you very much for understanding and have a nice weekend.

Regards Jakub Štibinger
